

# Accordion Shutters

The strongest, most affordable type of shutter, Accordions are permanently installed for year round protection and convenience. They fit beside windows, doors, balconies, and large patio openings. Accordion shutters allow the user to secure openings quickly. They lock from the inside or outside for increased security and protection.

# Features & Benefits

- **Easy to open and close**

*Accordions deploy quickly to securely protect your opening in the event of a storm.*

- **No storage space needed**

*permanent installation of accordion shutters frees up valuable storage space. Puts an end to putting up and taking down storm panels through out the season.*

- **Locking Mechanisms**

*Bertha HV™ Accordion includes three locking options: the affordable Push Button, the traditional T-Lock and the commercial grade “HD.”*

- **Security**

*Can be used as a reliable security device to protect your home.*

- **Heavy duty construction**

*durable powder coated aluminum construction.*

- **Unobstructed View**

*in the open position, accordions are stacked to both sides which offer a full view.*

- **Energy efficient**

*In closed or semi-closed position accordions provide shade and block the sun's harsh rays providing energy savings.*

- **Insurance Discounts**

*Insurance companies offer discounts for approved hurricane protection including Accordion Shutters.*

- **Increases value of your property**

*Permanent hurricane protection is seen as an upgrade to your property.*

- **Minimal Maintenance**

*Protect your investment with occasional washing and regularly scheduled lubrication.*

# HV™ Accordion Window

*Let light in and see the outside!*

- **Impact tested and approved: FBC (Non-HVHZ), HVHZ**
- **Up to 5 windows per blade**
- **Patent pending polycarbonate window**
- **New or retrofit installations**
- **Affordably clear**

# Centermate Options
